SKILLS

Proficiency in Web development

I have experience and expertise in React, Vue, Typescript, Babel, Parcel and Webpack, SCSS, Mongo Atlas and Mongo Shell, MySQL, NodeJS, Rust, Postman, Express etc.

Creativity

I consider myself a creative and clever person, able to discover fresh, inventive and innovative ways to complete tasks, automate mechanisms and improve processes.

Critical Thinking

I have an algorithmic method of finding solutions to problems that involves critical thinking and logical analysis. I try to not just make things work, but to make them work faster, simpler and better.

Adaptability and Negotiation

I am a pragmatic and flexible individual with the ability to learn new things quickly, rework and refactor existing processes, negotiate for ideal conditions and find compromises on bottleneck situations.
